

Hello community partners

We want to assure you and the clients we all serve that we at Provincial Victim Services continue to operate and support victims. We are operating with staggered scheduling as well as working remotely. We encourage clients to contact our regional email address or 1800 number to access services and to inquire about the capacity for in person meeting.

We hope you are all staying well. We will continue to work with you as we navigate this new challenging experience together. Please share with your contacts,

All the best, The victim services team,
